

EPISODE 4: HOW DO I... FIND THE SPACE?

This episode we spoke to Hazel Darwin-Clements, Charlotte Allan, Skye Reynolds and Rebecca Fraser about what to do with space - whether it's a small space, or lack of access to open or green spaces.

Listen the episode, and find our resources, here: www.starcatchers.org.uk/episode-space

DISCUSSION QUESTIONS

Use these questions to structure a team development meeting, or reflect on your own practice.

- How do you currently use your small or smaller spaces? How could you change them?
- What are your barriers to accessing green space?
- If you do not have easy access to green space, what local areas could you explore with wee ones? Is it about creating a breadcrumb trail through city streets or leaving provocations around gap sites?

CREATIVE CHALLENGE

Watch Hazel Darwin-Clement's video [Mini Worlds](#) and think about your own setting. What tiny details can you notice in your space on different levels? Start standing, and slowly move down to crawling and on your belly. Even something as small as a light switch or crack in the wall can become a robot button or mouse's home. Use post-its to label each find for your colleagues to see.
